

[fol. 8r]

| <i>Monat</i> | <i>Jener</i> | <i>Ordinari Schaf</i> | <i>Außmolzung</i> | <i>Schaf</i>    | <i>Mezen</i> |
|--------------|--------------|-----------------------|-------------------|-----------------|--------------|
| 1.           |              | 18                    |                   | 1               | 5            |
| 2.           |              | 9                     |                   | —               | 13           |
| 3.           |              | 9                     |                   | —               | 13           |
| 4.           |              | 18                    |                   | 1               | 10           |
| 5.           |              | 9                     |                   | —               | 15           |
| 6.           |              | 18                    |                   | 1               | —            |
| 7.           |              | 9                     |                   | —               | 13           |
| 8.           |              | 9                     |                   | —               | 13           |
| 9.           |              | 18                    |                   | 1               | 6            |
| 10.          |              | 9                     |                   | —               | 14           |
| 11.          |              | 9                     |                   | —               | 14           |
| 12.          |              | 18                    |                   | 1               | 7            |
| 13.          |              | 9                     |                   | —               | 16           |
| 14.          |              | 18                    |                   | 1               | 5            |
| 15.          |              | 9                     |                   | —               | 13           |
| 16.          |              | 18                    |                   | 1               | 6            |
| 17.          |              | 9                     |                   | —               | 13           |
| 18.          |              | 9                     |                   | —               | 15           |
| 19.          |              | 9                     |                   | —               | 15           |
| 20.          |              | 18                    |                   | 1               | 1            |
| 21.          |              | 9                     |                   | —               | 14           |
| 22.          |              | 9                     |                   | —               | 13           |
| 23.          |              | 9                     |                   | —               | 14           |
| 24.          |              | 18                    |                   | 1               | 9            |
| 25.          |              | 9                     |                   | —               | 13           |
| 26.          |              | 9                     |                   | —               | 15           |
| 27.          |              | 18                    |                   | 1               | 6            |
| 28.          |              | 9                     |                   | —               | 12           |
| 29.          |              | 9                     |                   | —               | 11           |
| 30.          |              | 18                    |                   | 1               | —            |
| 31.          |              | 9                     |                   | —               | 16           |
